**Attachments:** LTP\_Fact\_Sheet.pdf

Natalie -

We did not really talk much about our OGI proprietary software LeakTracker Pro last week at the 4- C Conference. Our workshop was technical in nature and hence we did not want to market products during a technical venue.

We have developed an OGI software package for NSPS OOOOa, state rules and voluntary programs where OGI cameras are used to track, monitor and report leaks associated w/well sites and compressor stations.

Give us your thoughts and ideas and pass along to Kosta. I am not sure I have his email address.

Here is the fact sheet and a link to a video as well. <https://youtu.be/47Pqs2oeuqY>.

Please send this out to your Hilcorp colleagues. We can certainly schedule an upcoming webex presentation.

**LEAK TRACKER PRO**

Learn What Leaktracker Pro™ Can Do For You!

The requirements for the NSPS Subpart OOOOa regulation are extensive and challenge the way leak data has traditionally been tracked, managed, and reported. W...
